DETAILED ACTION

The amendment filed March 26, 2002 (Paper No. 13) has been entered. Claims 11, 21 and 40 have been amended.

The following rejections are reiterated or newly applied and constitute the complete set of rejections being applied to the instant application. Rejections and objections not reiterated from the previous office action are hereby withdrawn.

Specification

The disclosure is objected to for the following reasons:

The amendment filed September 24, 2001 (Paper No. 9) included an amendment to the specification at page 27 to include essential subject matter from WO 95/13767, which was improperly incorporated by reference. However, the attempt to incorporate subject matter into this application by reference to WO 95/13767 is improper because the appropriate affidavit or declaration, stating that the amendatory material consists of the same material incorporated by reference in the referencing application, has not been submitted. See MPEP 608.01(p).

The incorporation of essential material in the specification by reference to a foreign application or patent, or to a publication is improper. Applicant is required to amend the disclosure to include the material incorporated by reference. The amendment must be accompanied by an affidavit or declaration executed by the applicant, or a practitioner representing the applicant, stating that the amendatory material consists of the same material incorporated by reference in the referencing application. See *In re Hawkins*, 486 F.2d 569, 179 USPQ 157 (CCPA 1973); *In re Hawkins*, 486 F.2d 579, 179 USPQ 163 (CCPA 1973); and *In re Hawkins*, 486 F.2d 577, 179 USPQ 167 (CCPA 1973).
